

19 October 1982

HQS Burroughs Equipment Status

A meeting has been setup for 9 a.m. on the 21st of October to inventory the Burroughs' B6900 system located in the Northside Computer Center, Headquarters. NSA has agreed to acquire this system and will be in attendance to inventory the system components. The Burroughs personnel responsible for equipment packing along with the SAFE Accounts manager, Donald Cole, will also attend. Burroughs has arranged for Alliance Moving and Storage Company to move the equipment and possibly store (if NSA does not store at their Edgewater, MD Storage Center).

Two representatives of the moving company will also attend in order to provide an estimate of the moving and storage cost. (Note - this is a Burroughs' subcontract.) For planning purposes Burroughs has agreed (Don Cole) verbally to use the existing TRW - Burroughs contract to charge these costs. (Packing, moving, and possibly, storage.) It is positions that these costs are part of the TRW/Burroughs settlement cost. TRW has also agreed verbally to Burroughs billing these charges through them. Don Cole will bill under the TRW SAFE/Burroughs contract with authorization from the CSPO Contracting Officer (CO). Burroughs will use the standard GSA rates and would like to bill the labor charges as they occur. He suggested the CSPO CO talk to the Burroughs contracting officer, Lou Champ (827-9455) to resolve liability and insurance questions for the equipment during relocation.

STAT

NSA will provide a letter accepting the B6900 and acknowledging that the outstanding system acquisition costs plus a fair portion of the costs of relocation will be reimbursed to the CIA.
